**Attachments:** Slauson EPA Letter.pdf

Dear Slauson Tanker Fire Stakeholders,

Attached please find the EPA Closure Letter indicating that the cleanup at the site has mitigated the threat to surface water to the satisfaction of the EPA OSC. The site remains under LARWQCB jurisdiction for threats to public health and groundwater.

Brett, please continue to cc me on any final reports associated with the soil removal; I do not need to be in the review chain.

I thank you all very much for your time and effort on this project.

Sincerely,

Ben Castellana, Ph.D.  
On-Scene Coordinator  
US EPA Region 9  
Superfund Emergency Response
